Your 1/7/13 blog post

Hi Dick,

✱

Great blog! Loved it! So happy you referred to my personal "history" site (a real archaic opus compared to what one sees today, but still containing some interesting archival material). For instance, under "World Citizenship Movement & the World Government," in the 3rd para. starting "In 2 years over 750,000 people registered, etc." you will note "In June, 'mondialized' Cahors." ✱✱

This small southern French town (famous for its wine) actually started the "Mundialization Movement" from which the 1971 statement of "Mundialization" of the State of Minnesota derived followed by the State of Iowa on October 25, 1973. (For the full list see <http://www.worldservice.org/mundcity.html>).

✱✱✱

Colonel Robert Sarrazac, former Maquis during WWII and my principal "organization" in Paris, was the author of the first "Mundialization" declaration.

Maybe a footnote could be added to fill out this important item.

Looking forward to having the pleasure of meeting you in the Spring.

Warmly, in one global village,

Garry
